PREFACE

The recording of cemeteries is a fascinating project. The recorders became so engrossed in thinking of names, dates and the variables found in every cemetery that the project was a pleasure rather than a chore. Much is written about the interesting epitaphs found in old cemeteries so it was expected that this would be the situtation in Dodge County; however, Dodge County cemeteries are about a hundred years later than those with epitaphs. Never-the-less, many unique bits of information was found on individual graves. One woman had listed on her slab the names of her three husbands with the length of each marriage. A man had three wives buried beside him and to be sure the public understood, a separate stone was at the foot of the graves with simply "first wife", "second wife" and so on.

There is a wide range of physical conditions of cemeteries. The family type cemetery, when near the family home places, is usually well kept - whereas the cemeteries where the families have moved away are fast disappearing. Lack of care, unchecked growth of trees and brush, the free roaming of destructive animals and the unconscionable plowing over of graves by farmers and land clearing crews are the main reasons cemeteries disappear. The church cemeteries reflect the activity and interest within the church. An active church usually has a neat and well kept cemetery.

Besides the family and church cemeteries, there are community cemeteries, one grave sites and large city cemeteries. A cemetery on the Pulaski and Dodge boundary is divided by the county line and there is a difference in the condition of each side. Then, there are two cemeteries next to each other and adjacent to the church but the identity of each is very carefully kept separate.

There are strict and clear federal laws protecting cemeteries and the law requires an accessible road and or entrance to any burial plot.

The recording of the approximately 135 cemeteries in the county covered a period of five years plus the additional time the publishers worked on the completion of the book. Therefore, burials in the interim would not be recorded. It was noticed that many new pillow markers had been added in the last few years to the unmarked slabs. Unfortunately, it the particular cemetery with new markers had already been recorded, the names would not therefore be on record. The recorders apologize if a loved one was left out for the above reasons and if in spite of care and concern a mistake was made by the recorders and caused an omission. Approximately 14,000 graves were recorded.

The customs of the times are found in cemeteries. A particular tombstone gives the usual dates and information of the man and then it is engraved on his tombstone that he was murdered by two named men. This was stated and allowed to stay even though no trial had been held. In the world of today there would surely be a law suit to have it removed.

In yesteryear a young girl was in disgrace if she had a baby out of wedlock. But today tiny infant graves can be found which have the mother and father of different names engraved on the infant's slab.

Advancement in science is realized when one sees multi infant graves of earlier years lined up beside one mother. Ignorance in health and medicine brought on such sadness and unhappiness.

Of course the improvement of education is most noticeable. In the first cemetery which was recorded it was discovered that according to what was engraved a man died February 31. The incorrect spelling and unbelievable hyphenations were found throughout the county, especially when the graves were old.

Anger is so very evident when an eighteen year old wife is buried in her parents plot and it is engraved on her slab that she was killed by her husband.

Sadness is felt so strongly when especially children and young people are buried and their pictures are on the slab as well as toys suitable for them at that age.

Of course humor can be found everywhere even in a cemetery. A middle age woman had a regular telephone sitting on her slab and you immediately knew what she liked to do when she was living. And a man who had a hog farm while living then had a ceramic sow with six sucking piglets placed on his slab.

Pride is the word to describe the Orphans Cemetery. Each old plot is carefully fenced and the Williamson monument is so regal as it stands amidst the plots.

Patriotism is one of the strongest emotions felt throughout the cemeteries of the county. The U.S. government is gracious in furnishing for free a marker for any veteran on request. There are many, many markers and every single conflict by the United States is represented in the county as they are proudly placed by the grave of the veterans.

If one grave could be singled out by the recorders as the most impressive, it would have to be a fairly new one of a preacher. His name and appropriate dates were engraved at the top of the slab and at the bottom were three simple words, "Lord, I Tried." His influence still lives. Those who walk by his grave can only ask themselves, "Lord, have I really tried?"

A number of people over the years assisted in the work of copying these inscriptions and we deeply appreciate that. Hopefully, the following list is complete but if there are omissions it was not intentional - Augusta B. Bennett, Betty H. Harrington, Marguerite W. Harden, Kay D. Miller, Carolyn Pridgen, and John D. Wilcox.

INTRODUCTION

The publication of this book is a joint project of the Dodge County Historical Society and the Central Georgia Genealogical Society. We are indeed grateful to Mr. and Mrs. Saunders and others of that society who assisted in reading and recording the inscriptions. It was a long and rewarding task, taking some five years to carefully study each tombstone and interpret the message inscribed. It is my understanding that the readings were completed about two years ago.

Next came the transcribing of all handwritten notes into computer format. For this we wish to express our thanks to Mr. Victor Myrick, a member of both societies, who took over the typing in the late stages and completed that portion of the project. The undersigned then edited, indexed and printed the final manuscript for submission to the printer.

We also wish to thank the R.J. Taylor, Jr., Foundation who awarded the Central Georgia Genealogical Society a grant covering 50% of the estimated printer cost. Without their assistance it is doubtful if the project would have been completed. The Foundation also absorbed the expense for publishing some thirty-three additional hard bound copies for which twenty-eight will be distributed to various libraries, of their choice, within the United States. The remaining costs of printing the manuscript will be covered by both societies and the profits of this endeavor will be shared. Sales will be advertised and handled by the Central Georgia Genealogical Society, Inc.

Dodge County was formed in 1870 from parts of Montgomery, Pulaski and Telfair counties. Therefore many of the early burials were original citizens of those counties.

WOODLAWN CEMETERY

Woodlawn is the largest cemetery in the county and is located within the city limits of Eastman a few blocks east of the downtown business section. Lots in the the old section are of odd shapes and sizes because of the location of walkways and streets in the cemetery. It is divided into ten sections as shown on the map. Lots are numbered in the transcription according to their number on the map.

[*NOTE: William Pitt Eastman was the founder of Eastman. He planned the town and was instrumental in the formation of Dodge County. His extensive business interests caused the region to prosper and brought to this area many people who played leading roles in the growth of the town and county. For some reason his family failed to provide markers for these graves. The marker was placed on this lot recently by John D.Wilcox.*]

CENTRAL GEORGIA GENEALOGICAL SOCIETY, INC.
POST OFFICE BOX 2024
WARNER ROBINS, GEORGIA 31099-2024

Non-Profit
Tax Exempt
Org. GA

ORGANIZATION: The CENTRAL GEORGIA GENEALOGICAL SOCIETY, Inc. was organized in October 1978 by James T. Martin of Warner Robins, Georgia. In February 1981 the Society was incorporated as a non-profit organization under the law of the State of Georgia. The U.S. Internal Revenue Service has determined that the society is a tax-exemption organization under Section 501(c)(3), U.S. Internal Revenue Code of 1954. The Society is governed by a Board of Directors consisting of the elected and appointed officers and six elected Directors.

AREA: The Society's geographical area of primary interest consists of twenty-seven contiguous counties located in central Georgia. They are: BALDWIN, BIBB, BLECKLEY, CRAWFORD, CRISP, DODGE, DOOLY, HOUSTON, JOHNSON, JONES, LAMAR, LAURENS, MACON, MONROE, MONTGOMERY, PEACH, PIKE, PULASKI, TAYLOR, TELFAIR, TREUTLEN, TWIGGS, UPSON, WASHINGTON, WHEELER, WILCOX and WILKINSON.

PURPOSE: The purposes for which the corporation is organized are:

To collect, preserve and disseminate knowledge and information with reference to genealogical and related historical, biographical and heraldic data;

To inculcate and promote interest in research in these fields;

To stimulate and provide instruction in the use of efficient methods and the adherence to principles of accuracy and thoroughness in research;

To champion ethical standards and to discourage and oppose incompetent and disreputable practices or researchers;

To foster careful documentation and otherwise promote scholarly writing;

To issue publications, and

To promote the collection and the preservation of local records which are of genealogical or historical value.

MEMBERSHIP: Membership in the Society is open to any person interested in promoting the objectives stated above. Annual dues for 1994 are: $20.00 for individual membership; $25.00 for family membership (husband and wife, or two related persons in same household).

TRAINING: At least twice each year the Society conducts classes for beginner genealogists. These classes are free for members in good standing.

WORKSHOP: The Society plans to hold an all day workshop once each year, complete with exhibits, for members and the public. The registration fee will be set to cover the Society's cost and may vary from year to year, depending upon prices charged for food, meeting facilities, speaker fees, etc.

PROJECTS: The Society undertakes special projects for preservation of genealogical and historical information, such as: microfilming old newspapers, abstracting and publishing county court records, federal census records, cemetery records, etc.

PUBLICATIONS: The Society publishes a monthly NEWSLETTER and a QUARTERLY. The QUARTERLY is published four times per year as number 1 thru 4 and is mailed to all members in good standing. The annual volume number represents the years in existence. Many other societies, who are members, receive our QUARTERLY. QUERIES, from members only, are published in the QUARTERLY free of charge. There is no limit as to the number of queries which a member may submit. BOOK REVIEWS are published when a copy of the book has

been received by the Society. After review these books are donated to the Genealogical and Historical Room, Washington Memorial Library, Macon, GA., whose holdings are one of the largest in the southeast. Members are encourage to submit ARTICLES FOR PUBLICATION in the QUARTERLY, and extra long articles may be serialized. The QUARTERLY is not copyrighted and anyone is welcome to make proper use of the contents; however, the use of articles quoted from other published sources is prohibited without permission from the copyright holder. Appropriate credit will be appreciated. The QUARTERLY is not sold by subscription. Current and back issues may be purchased from the Society when available. The Society welcomes the opportunity to publish FAMILY PEDIGREE CHARTS for members. Mimimum coverage of four generations is required. Our computer designed charts provided for as much information on the fifth generation as the second, third and fourth - most charts provide much less. Give us as much complete information as possible on available forms and separate paper.

MEETINGS: The Society holds regular monthly meetings with planned programs. These meetings are currently held at the Flint Electric Building, 1600 Elberta Road, Warner Robins, Georgia at 7pm on the third Thursday of each month. In addition to the program, time permitting, a question and answer session is usually conducted for the benefit of members who have a problem with their research, or who has found a better way for accomplishing their work. Visitors and guest are always welcome to attend regular meetings of the Society. Our current membership covers many states and we invite you to join our Society. For a membership application write to the Corresponding Secretary at address shown in the heading above or call (912) 953-3114.
